

SEWER RELOCATION AGREEMENT
(Inglewood Transit Connector Project)

This Sewer Relocation Agreement (“**Agreement**”) is dated _____, 2023 (the “**Effective Date**”) and is between **COUNTY SANITATION DISTRICT NO. 2 OF LOS ANGELES COUNTY**, a county sanitation district organized and existing pursuant to the County Sanitation District Act, California Health and Safety Code Section 4700 *et seq.* (the “**District**”), and **CITY OF INGLEWOOD**, a California municipal corporation (the “**City**”). The District and the City are each a “**Party**” and together are the “**Parties.**”

The District owns and maintains a 24-inch diameter public sanitary sewer in the City that is known as the Prairie Avenue Trunk Sewer (the “**Existing Sewer**”). The Existing Sewer was constructed by the District in 1972.

The City has informed the District that it is preparing plans and specifications to construct an elevated transit system referred to as the Inglewood Transit Connector Project (the “**Project**”). A portion of the Project footprint is located over the alignment of the Existing Sewer.

Construction of the Project will impair the District’s ability to operate and maintain the Existing Sewer unless a portion of the Existing Sewer is relocated. To avoid any impact of the Project on the Existing Sewer, the City has proposed to relocate approximately 830 feet of the Existing Sewer between Kelso Street and Manchester Boulevard (the “**Relocated Sewer**”) and to subsequently abandon in place or remove the portion of the Existing Sewer interfering with the Project. The location of the Relocated Sewer is shown on the attached Exhibit A.

The Parties intend by this Agreement to provide for the City’s construction of the Relocated Sewer (the “**Relocated Sewer Work**”) and other work related thereto, as more particularly described in this Agreement, and for the District’s takeover of the Relocated Sewer, all upon the terms and conditions set forth below.

The District and the City therefore agree as follows:

1. Design and Construction. The City or its agents shall design and construct the Relocated Sewer and perform the Relocated Sewer Work as described in this Agreement at the sole cost of the City and at no cost to the District. The City shall reimburse the District for fees and costs the District incurs in connection with the Relocated Sewer Work, as described in Section 10 below.
2. Plans and Specifications. The City shall prepare detailed engineering plans and specifications for the Relocated Sewer and the Relocated Sewer Work, in accordance with the District’s drafting and design standards and shall submit such plans and specifications for the District’s prior written approval. The plans and specifications will be designated as District’s Drawing No. 05-p-0170 (the “**Plans**”). After the District has expressly approved, signed, and released the Plans to the City, the City shall incorporate the Plans into the bid documents for the Project in order to perform the Relocated Sewer Work. The City shall not perform, and shall not permit to be performed, any Relocated Sewer Work unless and until the District has expressly approved, signed, and released the Plans to the City.

3. Property Rights. The City represents and warrants for the benefit and reliance of the District that the Relocated Sewer will be located within the Prairie Avenue public right-of-way (the “**Right-of-Way Area**”) and, therefore, an easement for the Relocated Sewer is not necessary. The City, at its sole cost and expense, shall obtain any and all licenses, encroachments, agreements, easements (if necessary), permits, and other approvals (including governmental approvals) necessary for the construction, operation, repair and maintenance of the Relocated Sewer and the performance of the Relocated Sewer Work (collectively, the “**Approvals**”). The City shall provide true, correct, and complete copies of all Approvals to the District prior to the start of the Relocated Sewer Work. The City shall not perform any Relocated Sewer Work unless and until all Approvals have been obtained by the City, and the City has provided true, correct, and complete copies of such Approvals to the District.
4. Schedule. The City shall advise the District, in writing, of the anticipated dates for the Relocated Sewer Work at least thirty (30) days prior to the start of the performance of the Relocated Sewer Work, and the District may file and record a Notice of Non-Responsibility in accordance with California Civil Code Section 8444. The City shall require its construction contractor to diligently pursue completion of the Relocated Sewer Work. If the Relocated Sewer Work has not commenced within two (2) years after the Effective Date, the District shall have the right to terminate this Agreement by providing written notice to the City (the “**District Termination Notice**”). Upon delivery of the District Termination Notice to the City, this Agreement will immediately, automatically and unconditionally terminate without further notice, and the Parties shall have no further obligations to each other except only those obligations that accrued prior to such termination and those obligations that expressly survive the termination of this Agreement.
5. Construction.
 - a. The City shall ensure that the Relocated Sewer Work is performed by a licensed contractor in strict conformance with the Plans and in compliance with the *Standard Specifications for Public Works Construction, 2021 Edition*, the District’s *Amendments to the Standard Specifications for Public Works Construction, 2021 Edition and Standard Drawings for Construction, 2021 Edition* (collectively, the “**Amended Standard Specifications**”), the Submittals (as defined below) approved by the District, and all applicable laws, regulations, codes, and ordinances, including, without limitation, prevailing wage laws (collectively, “**Laws**”). The City shall be responsible for the timely payment all fees and costs arising from or related to the Relocated Sewer Work. Following the District’s approval of the Plans as set forth above, any changes in the Plans requested by the District and not directly related to changes in field condition, design error, omission, or changes initiated by the City, its contractors or agents, will be at the District’s sole expense. The City shall track the costs for post-approval changes requested by the District, notify the District of the costs before starting work on requested changes, and will invoice the District accordingly upon successful completion of the Relocated Sewer Work. The District will not be responsible for any design errors or omissions in the Plans or any conflicting subsurface utilities or changed field conditions encountered by the City during the performance of the Relocated Sewer Work. The City acknowledges and agrees that

notwithstanding anything to the contrary in this Agreement, neither the District, nor any of the District Parties (as defined below) has made or shall make any representations or warranties with respect to the Right-of-Way Area, the Existing Sewer, the Relocated Sewer, the Relocated Sewer Work, or the Project.

- b. At least thirty (30) days prior to the start of the Relocated Sewer Work, the City shall provide to the District for review and approval specific shop drawing and engineering data submittals (“**Submittals**”) pertaining to the Relocated Sewer Work including, without limitation Submittals concerning trench shoring, sewer pipe, pipe bedding and sub-bedding materials, concrete mix design for manholes, and manhole stacking plans, and other Submittals as may be requested by the District. The District will provide the City a complete list of the required Submittals prior to the start of the performance of the Relocated Sewer Work. The City shall ensure that (i) all Submittals are in accordance with Section 3-8 of the Amended Standard Specifications and (ii) are submitted to the District using the District’s web-based project management application in accordance with Section 3-14 of the Amended Standard Specifications.
 - c. The City shall not restrict or obstruct the District’s access to any of the District’s sewers (including the Existing Sewer) for operation, maintenance, repair, and emergency purposes. The City shall sequence and perform all Relocated Sewer Work in a manner that will maintain the District’s sewers (including the Existing Sewer) in service at all times and shall take all steps to prevent the risk of an overflow or an actual overflow from the District’s sewers. This includes, but is not limited to, minimizing the duration of potentially harmful conditions such as the sewer being unearthed/exposed, and ensuring that temporary supports and protection measures are in place, such as operational flow diversion and flow bypass systems. If work is conducted in an area near runoff, surface or drainage water, then the City shall ensure that the exposed sewer has temporary protection, as necessary, to prevent damage by such water. The City shall not commence any Relocated Sewer Work unless and until (a) all necessary materials, equipment and labor are in place to complete the work from start to finish, and (b) the City has confirmed that the weather forecast at the Project location will be clear for at least five (5) consecutive days from the start of the Relocated Sewer Work. In no event shall the City commence any Relocated Sewer Work within forty-eight (48) hours of a rain event.
6. Compliance with Laws. The City shall comply with, and shall ensure that its agents, employees, representatives, and contractors comply with, all Laws in connection with the performance of the Relocated Sewer Work. The City shall indemnify, defend, and hold harmless the District, all other County Sanitation Districts of Los Angeles County, and their respective directors, officers, agents, representatives, and employees (collectively, the “**District Parties**”) from all claims, demands, damages, losses, costs, injuries, suits, causes of action, liabilities and penalties (including, without limitation, attorneys’ fees) (collectively, “**Claims**”) arising out of any failure by the City or its contractors, employees, agents, or representatives to comply with all Laws in connection with the performance of the Relocated Sewer Work and all other obligations of the City under this Agreement. The City shall assume the defense of all actions arising out of the City’s or its agent’s non-compliance with any Laws.

The foregoing indemnity survives the termination of this Agreement and/or the Ownership Effective Date (as defined below).

7. Environmental Compliance. The City and its agents, contractors, employees, and representatives shall comply with the requirements of the California Environmental Quality Act, California Public Resources Code Section 21000 *et. seq.* and Title 14 of the California Code of Regulations Section 15000 *et. seq.* (collectively, “**CEQA**”). The City shall prepare any studies and related environmental documents necessary for the Relocated Sewer and the Relocated Sewer Work at no cost to the District. The City and its agents, contractors, employees, and representatives are also responsible for securing all other environmental permits and clearances as may be required for the Relocated Sewer and the Relocated Sewer Work including, without limitation, any necessary permits from the California Department of Fish and Wildlife, United States Fish and Wildlife Service, the Los Angeles Regional Water Quality Control Board, and the United States Army Corps of Engineers (collectively, the “**Regulatory Permit**”) at no cost to the District. The City shall indemnify, defend and hold harmless the District and all District Parties from and against all Claims, as well penalties, fines, administrative civil liabilities and remediation costs relating to any CEQA or Regulatory Permit challenges or CEQA or Regulatory Permit proceedings involving the Relocated Sewer or the Relocated Sewer Work. The foregoing indemnity survives the termination of this Agreement and/or the Ownership Effective Date.
8. Insurance. The City shall require its contractor to obtain comprehensive general liability insurance as required by the Amended Standard Specifications and shall ensure that such insurance is maintained throughout the duration of the Relocated Sewer Work. The City shall require that the contractor name the District, through appropriate endorsements, as an additional insured on the contractor’s policy of liability insurance. The liability insurance certificate must be in accordance with Section 5-4 of the Amended Standard Specifications. The City shall furnish the District with a true, correct, and complete copy of the policy and all required endorsements for review and acceptance prior to commencing the Relocated Sewer Work.
9. Inspection.
 - a. The City shall provide the District with five (5) business days advanced written notice of a preconstruction meeting which shall be held at least ten (10) business days prior to the start of the Relocated Sewer Work. The District will make an inspector available for the preconstruction meeting and throughout the performance of the Relocated Sewer Work.
 - b. The City hereby authorizes the District to inspect the construction of the Relocated Sewer, specifically the sewer pipe, pipe sub-bedding, pipe bedding, pipe laying, pipe testing and manhole construction at any time during the performance of the Relocated Sewer Work. The District’s inspection is, in part, for the purpose of determining whether the District will accept the Relocated Sewer. All other activities such as trenching, consolidation of backfill, and paving/surface restoration conducted by or on behalf of the City must be performed in accordance with local city, county or other governmental requirements and all Laws, and the inspection related to these activities

is the sole responsibility of the City; it being understood that in no event shall the City rely upon the any actions of, or documents prepared by, the District in connection with the Relocated Sewer or the Relocated Sewer Work, including, without limitation, the District's inspections or performance of any survey.

- c. The City shall perform all surveying required to perform the Relocated Sewer Work and shall produce as-built drawings that are stamped by a Registered Professional Civil Engineer or Registered Land Surveyor licensed to practice in the State of California. Immediately upon completion of the Relocated Sewer Work, the City shall submit such as-built drawings to the District for review and approval. During the City's performance of the Relocated Sewer Work, the District, at no cost to the City, may survey the work being performed by the City or its contractor to verify grade and alignment of the Relocated Sewer and conduct a final survey of the Relocated Sewer.
- d. The City shall, upon request from the District, make available for inspection by a District representative the sewer pipe and manholes at the manufacturer's facility. The City agrees that all sewer pipe and manhole shafting must be approved by a District's representative, in writing, prior to delivery to the Project location. Any and all pipe materials delivered to the Project location without prior inspection by the District will be cause for rejection by the District. If the pipe materials are rejected by the District, the City shall take steps required by the District to ensure that such rejected pipe materials (including, without limitation, sewer pipe and manhole shafting) are replaced or repaired in a manner that is satisfactory to the District.
- e. Upon completion of the Relocated Sewer Work and before placing the Relocated Sewer into service, the City shall conduct, at no cost to the District, a closed-circuit television ("CCTV") inspection of the Relocated Sewer in accordance with Section 500-3.4 of the Amended Standard Specifications and as directed by the District. The City shall immediately submit the CCTV DVDs and printed reports to the District for review and written approval. The City shall replace any and all damaged or poorly constructed pipe and pipe joints, as determined by the District (in its sole and absolute discretion) and at no cost to District. Upon completion of construction and any repairs and/or replacements to the Relocated Sewer to the sole satisfaction of the District, the District will provide the City with written notification approving the Relocated Sewer ("**Relocated Sewer Approval**").
- f. Following Relocated Sewer Approval, the City may request that the District place the Relocated Sewer into service before the District accepts ownership of the Relocated Sewer (as described in Section 13 below). If the Relocated Sewer is placed into service before its acceptance by the District, the City shall indemnify the District as described in Section 14(a)(i).

10. Reimbursement of District's Costs.

- a. Actual District's Costs – Notwithstanding anything to the contrary in this Agreement, the City shall construct the Relocated Sewer and perform all Relocated Sewer Work at no cost to the District and shall reimburse the District for the actual cost of the District's

staff to provide inspection, as described in Section 9, as well as the actual cost of the District's staff to review and approve Submittals (collectively, the "**District's Costs**"). The District's Costs will include benefits and overhead added to total salaries, wages, and equipment costs. The District shall maintain records of the District's Costs in accordance with recognized accounting principles.

- b. Deposit of Estimated District's Costs – The District estimates the District's Costs to be approximately One Hundred Eighty Thousand Dollars (\$180,000) ("**Estimated District's Costs**"). Concurrently with the City's execution of this Agreement, the City shall pay to the District the Estimated District's Costs.
 - c. Final Invoice – The District will furnish to the City within ninety (90) calendar days after the Ownership Effective Date, an invoice that provides a final accounting of the District's Costs, including an itemization of names, number of hours, and hourly wage. If the final invoice shows a balance due to the District, then the City shall pay the balance due to the District within forty-five (45) calendar days after the date of the final invoice. If the final invoice shows any remainder amounts due to the City, then the District shall refund the remaining portion of the Estimated District's Costs to the City within forty-five (45) calendar days after the date of the final invoice.
11. Notice of Completion. Upon receipt of Relocated Sewer Approval from the District, the City shall sign, verify and record a Notice of Completion in accordance with California Civil Code Section 8182 and in the general form of Exhibit B and in a final form approved by the District.
 12. Bill of Sale. Upon recordation of the Notice of Completion, and at no cost to the District, the City shall execute and deliver to the District, free and clear of any claims, liens, or encumbrances, title to the Relocated Sewer and appurtenances by way of a recordable Bill of Sale in the general form of Exhibit C and in a final form approved by the District.
 13. Acceptance of Relocated Sewer. The District will accept ownership and maintenance of the Relocated Sewer effective on the date the District records the Bill of Sale with a Certificate of Acceptance, which will be no later than ninety (90) calendar days after recordation of the Notice of Completion (the "**Ownership Effective Date**") and only if the District determines that:
 - a. The City and the construction contractor have constructed the Relocated Sewer in strict conformance with the Plans, and in compliance with the Amended Standard Specifications, the Submittals, and all Laws; and
 - b. The City has fully performed and satisfied all terms and conditions of this Agreement; and
 - c. No legal actions or stop notice claims are pending or threatened concerning any of the provisions of this Agreement or any work of construction provided for in this Agreement; and

- d. There are no liens or stop notices filed or recorded in connection with the Relocated Sewer, the City has fully complied with California Civil Code Sections 9356 and 8182, and at least sixty (60) calendar days have elapsed since the recording of the Notice of Completion.
14. Indemnity. Except as set forth in Section 14(a)(iii) below, this indemnity provision will survive the termination of this Agreement and will continue in effect for thirty (30) years after the Ownership Effective Date.
- a. The City shall be responsible for all costs, expenses, losses, fines, penalties, civil administrative liabilities and liabilities relating to or arising from the Relocated Sewer Work and shall indemnify, defend and hold harmless the District and all District Parties, from and against any and all Claims, including, without limitation, claims for personal injury or property damages, penalties, fines, administrative civil liabilities and remediation costs arising from or in any way associated with the following:
- i. Ownership, operation or maintenance of the Relocated Sewer before the Ownership Effective Date;
- ii. Construction of the Relocated Sewer and all Relocated Sewer Work before the Ownership Effective Date, including but not limited to trenching, backfill work above the pipe zone and surface restoration work;
- iii. Product or design defects in the sewer pipe or related appurtenances in the Relocated Sewer, discovered no more than five (5) years after the Relocated Sewer begins to operate, provided that such defect(s) was/were present prior to the Ownership Effective Date; or
- iv. Any overflows or spills of wastewater resulting from the Relocated Sewer prior to the Ownership Effective Date.
- b. The District shall hold the City and its officers, agents and employees harmless from all claims, demands, costs, expenses, liabilities or losses, and assume the defense of all actions for any damages or injuries arising out of the use, ownership, operation, or maintenance of the Relocated Sewer from and after the Ownership Effective, except that the City shall remain liable for claims, demands, costs, expenses and liability or loss relating to or arising from the Relocated Sewer Work as provided in Section 14(a).
- c. The City's duty to defend the District pursuant to Section 14(a) is independent of its duty to indemnify the District, and the duty to defend shall apply immediately upon the City becoming aware of any claims potentially subject to the duty to indemnify, provided such defense shall be provided by counsel selected by the City and reasonably acceptable to the District.
15. No Attribution of Sewer Capacity. This Agreement does not provide the City with any right to sewer capacity in the District's sewerage system or constitute any waiver or reduction of any charge that would otherwise be due to the District.

16. District's Delegation of City. The District hereby delegates to the Chief Engineer and General Manager (the "**Chief Engineer**") the authority to act on behalf of the District in carrying out the terms of this Agreement. The Chief Engineer, or his or her designee, may accept without further Board of Directors action the Bill of Sale for the Relocated Sewer on behalf of District and make other determinations and approvals on behalf of the District to fulfill all responsibilities of the District under this Agreement.
17. Project Manager. The City designates as its project manager Mr. Louis A. Atwell, Assistant City Manager/Public Works Director for the City of Inglewood, with the following contact info: City of Inglewood, One Manchester Blvd., Inglewood, California 90301, (310) 412-5333 latwell@cityofinglewood.org (the "**Project Manager**"). The City shall provide the District with immediate written notification of any change to the Project Manager or his/her contact information.
18. City's Delegation of City. The City hereby delegates to its Project Manager the authority to act on behalf of the City in carrying out the terms of this Agreement. The Project Manager may execute, without further action by the City Council, the Notice of Completion and the Bill of Sale on behalf of the City and make other determinations and approvals on behalf of the City to fulfill all responsibilities of the City under this Agreement.
19. General Provisions.
 - a. The Parties shall do additional acts as may be deemed reasonably necessary by the Chief Engineer and Project Manager to carry out the purpose of this Agreement.
 - b. This Agreement contains the entire agreement between the Parties concerning the Relocated Sewer and supersedes any prior agreements between the Parties with respect to the Relocated Sewer. Any subsequent representations or modifications will be of no force or effect, except for a subsequent modification in writing executed by both Parties.
 - c. If the Project, which precipitated this Agreement, is cancelled or modified to eliminate the need to construct the Relocated Sewer, the City shall notify the District in writing and may terminate this Agreement at any time prior by providing thirty (30) days prior written notice to the District (the "**City Termination Notice**"). Upon the expiration of thirty (30) days after delivery of the City Termination Notice to the District (the "**Thirty Day Termination Period**"), this Agreement will immediately, automatically and unconditionally terminate without further notice, and the Parties shall have no further obligations to each other except only those obligations that accrued prior to such termination and those obligations that expressly survive the termination of this Agreement. In addition, prior to the expiration of the Thirty Day Termination Period, the City shall restore the Existing Sewer to its original condition existing as of the Effective Date.
 - d. If any term or provision of this Agreement is held to any extent to be invalid or unenforceable, the remainder of this Agreement will not be affected.

- e. Each Party has participated in negotiating and drafting this Agreement, so if an ambiguity or a question of intent or interpretation arises, this Agreement is to be construed as if the Parties had drafted it jointly.
- f. A waiver of any breach of any provision of this Agreement or of any failure to comply with any requirement of this Agreement will not be deemed a waiver of any other provision or requirement of this Agreement, and no waiver will be valid unless in writing and executed by the waiving Party. An extension of time for performance of any obligation or act will not be deemed an extension of time for performance of any other obligation or act. Time is of the essence with respect to the City's performance of its obligations under this Agreement.
- g. This Agreement is to be executed in duplicate originals to be retained by each Party. This Agreement may be executed in one or more counterparts, which when taken together, shall constitute one and the same original. A facsimile or electronic signature shall be deemed to be the equivalent of an original signature and shall be effective to bind a party hereto.
- h. The City shall not transfer, assign, convey, or sell any of its obligations under this Agreement without the prior written consent of the District which consent may be withheld in the District's sole and absolute discretion. This Agreement will inure to the benefit of and will be binding upon the Parties and their respective successors and permitted assigns.
- i. This Agreement is to be governed and construed in accordance with California law.
- j. Each Party shall execute and deliver any instruments, and perform any actions that may be necessary, or reasonably requested, in order to give full effect to this Agreement.
- k. In the event any action is instituted by a Party to interpret or enforce this Agreement, the prevailing Party in such action (as determined by the court, agency or other authority before which such suit or proceeding is commenced), shall be entitled to such reasonable attorneys' fees, costs and expenses as may be fixed by the decision maker.
- l. Each individual signing this Agreement warrants and represents that he or she has the full authority to execute the Agreement on behalf of the Party on whose behalf he or she so signs, that he or she is acting within the scope of such authority, and that this Agreement shall be binding upon and enforceable against the Party on whose behalf he or she so signs by virtue of such signature.
