Boards of Directors  
County Sanitation Districts  
of Los Angeles County

Directors:

**Agenda Items for Proposed Connection Fee Ordinances and Proposed Purchasing Policy**

**Connection Fee Ordinance**

The agenda for the upcoming meetings of the Boards of Directors for most Districts contains an item regarding proposed changes to the Districts' Connection Fee Ordinances (Ordinances) as previously discussed with the Personnel Committee on February 26, 2020. Districts Nos. 4, 9, 27, 34, and Newhall Ranch will not be considering changes to connection fees as described later in this letter.

Connection fees are paid by new users of Districts' wastewater collection and treatment systems to pay for the cost of expanding facilities to accommodate the incremental discharge from that user. Revisions to the Ordinances and the Joint Outfall Agreement are recommended that will reduce most connection fee amounts, provide additional flexibility for capital funds, and bring the Ordinances into compliance with new state laws. The proposed changes were presented to the Personnel Committee, which endorsed the changes. The proposed changes include:

- Fees to be calculated using a capital buy-in formula, not a future expansion model.
- Allow connection fee funds (both future and existing) to be used for any capital project, not just expansion.
- Allow additional payment flexibility for certain industrial customers.
- Exempts Accessory Dwelling Units that meet the definitions of an ADU or Junior ADU in Government Code Section 65852.2.

These changes require adoption of a new Connection Fee Master Ordinance and Connection Fee Rate Ordinance by each District. Additionally, Districts that are signatory to the Joint Outfall Agreement also need to adopt a new Joint Outfall Agreement to modify provisions in this agreement governing Joint Outfall Districts' connection fee funds.

Districts Nos. 4, 9 and 27 pay the City of Los Angeles connection fee and are not affected by the proposed changes, as their connection fee rate mirrors that charged by the City of Los Angeles. No changes are currently being proposed for the Newhall Ranch Sanitation Districts' connection fees as it was recently formed, has no users and does not yet have a significant amount of assets. District No. 34 does not have an active sewer system and has no connection fees.

Copies of the proposed Master Connection Fee Ordinance, Connection Fee Rate Ordinance, Joint Outfall Agreement (for Joint Outfall Districts), and a table showing the proposed Connection Fee Rates for

all Districts are attached to the agendas for those Districts considering adopting the proposed changes. If approved, the new Ordinances would take effect July 1, 2020.

### **Purchasing Policy**

At the October 23, 2019, meeting of the Personnel Committee, recommendations for revision of the Districts' Purchasing Policy were presented. The Committee concurred with the recommendations and subsequently a revised Policy was drafted and endorsed by the Committee at the January 22, 2020 meeting. The proposed Purchasing Policy is being presented to every Districts' Board for consideration and adoption at their upcoming meetings.

Revisions to the existing policy include:

- Increased dollar limits for requiring formal bidding and board approval.
- Incorporates California Uniform Public Construction Cost Accounting Act (CUPCCAA), which raises the limit on construction projects that Districts' forces can undertake and provides for streamlined bidding processes for small construction projects.
- Updates the outreach program for small and disadvantaged businesses to more closely align with the County's program.
- Clarifies that Board approval is not required to advertise and receive bids for routine purchases and projects.
- Incorporates several authorizations and policies provided by previous separate board actions.
- Additional revisions to formalize existing practices; ensure consistency with laws, regulations, and agreements; and to provide for better organization and clarity.

The proposed revised Purchasing Policy, along with two resolutions that are required to incorporate CUPCCAA processes, will be presented to each Board for adoption over the next several months. If approved, the new Policy will take effect after adoption by all Boards.

Very truly yours,

Robert C. Ferrante

- 4-7 Any bid received after a bid closing date and hour will be returned unopened.
- 4-8 Contractors must supply such bidders’ security, payment bonds, or performance bonds required by law or District specifications. The Purchasing Agent shall establish reasonable minimum requirements for bonds and surety companies.

Boards of Directors  
Los Angeles County Sanitation Districts  
of Los Angeles County

Dear Directors:

**Wastewater Budget Matters for Fiscal Year 2020-21**

The agendas for the upcoming meetings of the Boards of Directors for most Districts contain items relating to wastewater budget matters for fiscal year (FY) 2020-21. These items include establishing an appropriations limit on the proceeds of taxes; adopting the sewerage system final budget; requesting the tax levy; authorizing appropriations per the sewerage system budget; and, for certain Districts, actions related to the previously filed Service Charge Report.

**APPROPRIATIONS LIMIT**

The Constitution of the State of California places a limit on the authorization to expend the proceeds of taxes levied by state and local governments in California. In addition, the Government Code requires the governing body for each local jurisdiction to establish, by resolution, an appropriations limit for each fiscal year. The appropriations limit for FY 2020-21 has been determined by adjusting the previous limit for FY 2019-20 based upon population change factors for Los Angeles County and the change in the California Personal Per Capita Income. The appropriations limit has also been adjusted to include the increased operation and maintenance and capital costs of treatment processes and facilities needed to comply with state and federal requirements. All of this is in accordance with the procedures outlined in Article XIII B of the Constitution and Section 7910 of the Government Code. The proposed appropriations limit and anticipated tax revenue are enclosed. This information has been available to the public at the Districts' Joint Administration Office in conformance with the requirement that the documentation used in the determination of the appropriations limit be available fifteen days prior to its establishment by the Board of Directors.

**FINAL BUDGET FOR FISCAL YEAR 2020-21**

Enclosed for your review is the proposed final fiscal year 2020-21 budgets for the District and the Joint Outfall System (JOS), if applicable. Budgets include a list of proposed capital projects (if any) along with descriptions of the projects; a list of user fees; information on the monies set aside in various funds/reserves; and an explanation of terms used in the budget. The JOS budget will only be adopted by District No. 2, the administrative District for the JOS. Joint Administration and Joint Outfall costs are allocated to each District according to the ratio of the number of sewage units in a District to the total number of sewage units in all the Districts signatory to each agreement. A sewage unit represents the average daily sewage flow and strength (measured in terms of chemical oxygen demand and suspended solids) from a single-family home. This method of allocating costs considers flow as well as the strength of sewage from all types of users and is the most equitable way to distribute Joint costs.

SERVICE CHARGE REPORT

Districts Nos. 4, 9, 14, 17, and 20 will also have an item regarding the Service Charge Report previously filed with the District Clerk. Adoption of the Report is needed for the continued collection of service charges on the property tax roll for residential, commercial and small industrial dischargers. This is the most cost-effective and efficient means of collecting the service charges.

Prior to considering adoption of the Report, the Board must hold a public hearing. The date, time, and location of the public hearing will be held as listed on the agenda. Notice of the public hearing was published twice in newspapers of general circulation within the District. Public testimony will be accepted at the hearing and all written comments must be received at or by this time. After all public input has been received by the Board, the public hearing will be closed, and the Board will consider adoption of the Report. A copy of the Service Charge report is attached for Districts considering this action.

SUMMARY OF REQUIRED ACTIONS

At the June Board meetings, it will be recommended that the Boards of Directors adopt a resolution establishing the appropriations limit on the proceeds of taxes; adopt the budget for FY 2020-21; adopt a resolution requesting the tax levy; authorize appropriations in the sewerage system budget; and adopt the Service Charge Report (certain Districts), all as shown on the agenda.

Very truly yours,

Robert C. Ferrante

# COUNTY SANITATION DISTRICT NO. 9 SERVICE CHARGE REPORT FOR FISCAL YEAR 2020-21

## INTRODUCTION

County Sanitation District No. 9 of Los Angeles County encompasses a portion of the city of Los Angeles and unincorporated Los Angeles County.

District No. 9, unlike other Sanitation Districts within the urbanized Los Angeles basin, does not own treatment and disposal facilities. District No. 9 contracts for treatment and disposal services with the City of Los Angeles. These services are essential to protect the public health of the people served by the system.

District No. 9 must provide the revenue required to operate and maintain, including capital costs, its proportionate share of the facilities owned by the City of Los Angeles. The general revenue sources currently available to the District include a pro rata share of the ad valorem (property) taxes, service charges, interest income and reserves. Any surplus will be transferred to designated reserves to meet targeted reserve requirements.

## PROPOSED SYSTEM DESCRIPTION

The supplemental revenue required under the *Master Service Charge Ordinance of County Sanitation District No. 9 of Los Angeles County* will be allocated among classes of developed parcels of real property on the basis of use of the sewerage system. The revenue derived from the service charge will be used for operation and maintenance and capital costs.

All industrial dischargers in District No. 9 discharging more than 1.0 million gallons per year are required to file a wastewater surcharge statement as prescribed in the Wastewater Ordinance to pay their appropriate share of the costs based on their use of the sewerage system. All other users of the sewerage system, except for contractual and local government users, will pay service charges.

The basic term used to define the service charge is a sewage unit. A sewage unit represents the average daily quantity of sewage flow and strength from a single-family home measured in terms of flow, chemical oxygen demand, and suspended solids. The number of sewage units (SU) per unit of measure shall be determined by the following formula:

$$\text{SU} = A \left( \frac{\text{FLOW}_{\text{avg}}}{\text{FLOW}_{\text{sfh}}} \right) + B \left( \frac{\text{COD}_{\text{avg}}}{\text{COD}_{\text{sfh}}} \right) + C \left( \frac{\text{SS}_{\text{avg}}}{\text{SS}_{\text{sfh}}} \right)$$

where:

A = The proportion of the total operation and maintenance and capital costs required for conveyance, treatment, and disposal of wastewater for the fiscal year which is attributable to flow;

B = The proportion of the total operation and maintenance and capital costs required for conveyance, treatment, and disposal of wastewater for the fiscal year which is attributable to COD;

C = The proportion of the total operation and maintenance and capital costs required for conveyance, treatment, and disposal of wastewater for the fiscal year which is attributable to suspended solids;

FLOW<sub>sfh</sub> = Average flow of wastewater from a single-family home in gallons per day;

- COD<sub>sfh</sub> = Average loading of COD in the wastewater from a single-family home in pounds per day;
- SS<sub>sfh</sub> = Average loading of suspended solids in the wastewater from a single-family home in pounds per day;
- FLOW<sub>avg</sub> = Estimated flow of wastewater which will enter the sewerage system from a user in gallons per day;
- COD<sub>avg</sub> = Estimated loading of COD which will enter the sewerage system from a user in pounds per day;
- SS<sub>avg</sub> = Estimated loading of suspended solids which will enter the sewerage system from a user in pounds per day.

For fiscal year 2020-21 the proportions of the total operation and maintenance and capital costs attributable to flow, chemical oxygen demand, and suspended solids have been assigned the following values:

A	=	0.3049
B	=	0.3348
C	=	0.3603

The service charge for each sewage unit is determined by dividing the total required supplemental revenue by the total number of sewage units in the District. The service charge for each parcel is determined by multiplying the service charge for each sewage unit by the number of sewage units attributable to the parcel, which in turn, is determined by the class of real property and the sewage unit formula and the flow, COD and SS loadings from Table 1, which shows the corresponding value for each class of real property in District No. 9.

Based upon presently anticipated sources of funds, the service charge rate for fiscal year 2020-21 is \$78 per sewage unit. Parcels with significantly lower water usage may be eligible for a reduced rate pursuant to the terms of the Master Service Charge Ordinance of District No. 9 of Los Angeles County.

**DESCRIPTION OF PARCELS RECEIVING SERVICES AND IDENTIFICATION OF AMOUNT OF CHARGE FOR EACH PARCEL**

All parcels of real property within the 2020-21 Tax Rate Areas as shown in Table 2 are receiving or benefiting from the services and facilities of District No. 9. Additionally, the parcels listed in Table 3, which do not fall within the Tax Rate Areas shown in Table 2, are receiving or benefiting from the services and facilities of District No. 9. Said parcels are more particularly described in maps prepared in accordance with Section 327, Revenue and Taxation Code, which are on file in the office of the County Assessor, which maps are hereby incorporated herein by reference.

All commercial and institutional parcels assessed a service charge based on the Los Angeles County Assessor's current tax roll shall be charged on the basis of not less than one (1.0) sewage unit.

No charge shall be imposed on the owner or owners of any parcels as to which the fair market value of improvements is less than \$1,000 as determined on the basis of the Assessor's current tax roll. This assumption is predicated on the fact that this type of parcel would be a vacant piece of land; however, should subsequent evaluation reveal that the property is not vacant, then an appropriate service charge would be levied.

**Introduction**

The budget package for each District consists of the following sections:

- **Operating Fund Wastewater Budget:** Details of the sources and uses of funds for the Operating Fund, which is the only Unrestricted Reserve fund as described in the District’s wastewater reserve policy. The preliminary budget for the upcoming fiscal year is compared to the final adopted budget for the current fiscal year.
- **Proposed Capital Projects:** Shows major capital projects budgeted expenditures for the fiscal year. If a District has no major capital projects budgeted, this section is omitted.
- **Designated and Restricted Reserve Budget:** Provides beginning and ending balances of each category of reserves along with major inflows to and outflows from that reserve.
- **Rate and Other Information Summary:** Shows current and budgeted rates for the various user fees; summary of projected sewage units; and other metrics.
