

Phone Numbers for Local Sewer Lines

If you have a sewer blockage, the problem could be in the piping of your home or apartment or in the sewer located in the nearby street, which we call a local sewer. These local sewers are maintained by the local jurisdiction instead of the Sanitation Districts.

If you see or suspect a sewage blockage or sewage overflow in your neighborhood, please call the phone number for your city listed below.

City	Sewage Overflow Calls During Business Hours	Sewage Overflow Calls During Non-Business Hours
