RE: INTRODUCE CONNECTION  
FEE RATE ORDINANCE

Prior to meeting in regular session, in the Status Report, the Chief Engineer and General Manager stated that all agendas have an item related to the connection fee, which is paid by new users or upgrades to the amount of flow. Recent changes to the financial practices for the Joint Outfall System require an update to the Connection Fee Ordinance.

In response to Director Cerda, the Chief Engineer and General Manager stated that the connection fee is for new development (residential or commercial) or upgrades to the amount of wastewater flow from existing customers. Per legislations, a connection fee is not required for accessory dwelling units. The connection fee is used towards capital improvements to increase capacity.

In regular session, an *Ordinance Prescribing the Connection Fee Rate and Mean Loadings per Unit of Usage for County Sanitation District No. 5 of Los Angeles County* (Connection Fee Rate Ordinance), was presented. Wastewater connection fees are paid by new users or existing dischargers who increase their discharge. The fees are calculated using a "buy-in" methodology where new users or increasing dischargers buy-

in to the existing facilities and funds. Revisions to the Ordinances are needed due to the Joint Outfall System financial consolidation that will become effective July 1, 2022, and the proposed service charge rates presented to the Board in February. Copies of the proposed Connection Fee Rate Ordinance and a letter discussing the proposed changes were attached to the agenda. This item is consistent with the Districts' Guiding Principles of commitment to fiscal responsibility and prudent financial stewardship; and to plan for both short-term and long-term needs to minimize the need for significant rate increases. A recommendation was made to adopt the Ordinance. A copy of the Ordinance accompanied the agenda.

Upon motion of Director Pullen-Miles, duly seconded and unanimously carried by a roll-call vote, an *Ordinance Prescribing the Connection Fee Rate and Mean Loadings per Unit of Usage for County Sanitation District No. 5 of Los Angeles County* (Connection Fee Rate Ordinance) was introduced, and after reading of the title thereof, further reading of the Ordinance was waived.

through the SRF program. The proposed Resolutions are required to finalize the SRF and WIFIA financing for the two projects. The proposed Resolutions authorize approval of the necessary documents and direct staff to distribute the documents. The WIFIA documents (WIFIA Term Sheet, WIFIA Loan Agreement, WIFIA Loan Agreement Promissory Note) and the SRF Installment Sale Agreements (*Clearwater Project SRF Installment Sale Agreement* and *216th Street Project SRF Installment Agreement*) are in a substantially final form. With the pending changes from the recently adopted Joint Outfall Agreement, the 216th Street Project will become a JOS Project on July 1, 2022, and therefore, approval of the SRF Installment Sale Agreement by all JOS boards is required. The District No. 2 Board, acting on behalf of the JOS Districts, previously certified the Final Environmental Impact Report and approved the Final Master Facilities Plan for the Tunnel Project, and District No. 8 previously approved a Notice of Exemption for the 216th Street Project. Staff has determined that adoption

In order to finance the Joint Outfall System (JOS) Joint Water Pollution Control Plant Effluent Outfall Tunnel Project (Tunnel Project), also known as the Clearwater Tunnel, the Districts applied for financial assistance (effectively a low-cost loan) from the State Water Resources Control Board's Clean Water State Revolving Fund (SRF) and for a loan from the US Environmental Protection Agency's Water Infrastructure Finance and Innovation Act (WIFIA) program. The agencies have approved the applications for up to approximately \$140 million in SRF financial assistance and up to approximately \$441 million for the WIFIA loan. In addition, in order to finance the 216th Street Replacement Trunk Sewer Phase 2 Project (216th Street Project), District No. 8 applied for \$17.5 million in financial assistance

of the proposed resolutions does not constitute a “Project” under the California Environmental Quality Act (CEQA) pursuant to California Public Resources Code Section 21065 and Title 14 of the California Code of Regulations (“CEQA Guidelines”) Section 15378. This item is consistent with the Districts’ Guiding Principles of commitment to fiscal responsibility and prudent financial stewardship; and to protect financial and facility assets through prudent investment and maintenance programs. A copy of the proposed Resolutions were attached to the agenda. A recommendation was made to adopt the Resolutions.

The Chief Engineer and General Manager stated that he previously briefed the Boards on the matter of financing the Clearwater Tunnel Project. The Districts is procuring state and federal funds for a total of \$581 million. This will help to finance the tunnel and minimize rate increases. The financing is spread over 30 years. In addition, a small portion will finance the 216<sup>th</sup> Street Replacement Trunk Sewer Project in the city of Carson.
